Personal statement

Recent Games Development with Computer Science graduate from the University of Plymouth with a strong passion for gameplay programming, graphics programming, and software development. Experienced in developing projects using C++ with OpenGL and C# with Unity, with a particular interest in game systems, rendering techniques, and interactive application development.

Throughout my degree and personal projects, I have developed strong problem-solving and analytical skills through designing and implementing gameplay systems, graphics features, and technical solutions. I am confident working independently and collaboratively, with experience debugging complex systems, learning new technologies quickly, and managing projects from concept to completion.

I am highly motivated to begin my career within the games industry or software development sector, where I can continue developing my technical skills while contributing to innovative and engaging projects.

Key Skills

- Proficient in C++ and OpenGL graphics programming
- Strong experience developing games and systems in Unity using C#
- Knowledge of gameplay programming, rendering systems, and game architecture
- Strong problem-solving and debugging abilities
- Understanding of object-oriented programming principles
- Experience with version control systems including Git and GitHub
- Ability to learn new technologies and tools quickly
- Strong analytical and mathematical skills
- Effective communication and teamwork skills
- Attention to detail and structured approach to development

- Experience working on both academic and personal programming projects

Technical Skills

- Languages: C++, C#, and a little Python
- Engines/Frameworks: Unity, OpenGL
- Tools: GitHub, Visual Studio, Blender
- Areas of Interest: Gameplay Programming, Graphics Programming, Game Systems

Education

Corby Business Academy
(2011-2016)

Tresham College Corby
(2019-2021)

University of Plymouth
(2021- 2026 *awaiting results*)

Work Experience

Quest Employment

March 2018 – May 2019

Office Admin - Key Responsibilities:

I supported Quest Employment during their transition from paper-based registrations to a CRM database system. As part of this project, I contributed to the development process by suggesting features and improvements that would enhance functionality and improve overall efficiency for the office team.

McColls Retail Group

May 2019 – September 2020

Store Colleague – Key Responsibilities:

- Delivered excellent customer service within a fast-paced retail environment.
- Received, checked, and processed deliveries against delivery notes.

- Managed inventory and replenished stock to maintain product availability.
- Maintained high standards of cleanliness and organisation across the shop floor.
- Ensured compliance with health and safety procedures at all times.
- Checked expiry dates and rotated stock effectively to minimise waste.
- Operated tills accurately, including cash handling, refunds, and customer transactions.
- Worked collaboratively with colleagues to achieve daily targets and ensure smooth store operations.

Asda Stores Limited

October 2020 – December 2020

Store Colleague – Key Responsibilities:

- Delivered excellent customer service in a fast-paced retail environment.
- Received and processed deliveries efficiently, checking stock against delivery notes.
- Handled inventory management and restocked shelves promptly to maintain product availability.
- Ensured the shop floor remained clean, organised, and compliant with health and safety standards.
- Managed stock rotation and checked expiry dates to maintain quality standards.
- Operated tills and processed transactions accurately, including cash handling and refunds.
- Worked collaboratively with colleagues to achieve daily targets and support the smooth running of the store.

Lac Les Pins (France)

**December 2020 – Present
(outside of term time)**

Fishing Lake Assistant - Key Responsibilities:

- Operated small machinery during land maintenance periods, including the safe use of trimmers, while ensuring correct PPE was worn at all times.
- Drove and operated site machinery and vehicles, including tractors and Polaris Rangers, during daily work activities.
- Assisted with kitchen duties including cooking, cleaning, and delivering customer meals while working efficiently to strict deadlines.
- Interacted with customers on a daily basis, ensuring all requests and demands were met, including adhoc personal requests where required.

- Maintained regular communication with site management regarding daily operations and task completion.
- Ensured animal welfare standards were maintained and feeding schedules adhered to in line with management instructions.
- Assisted with lake stock management during winter periods, including fish handling, stock movement, and reallocation.
- Ensured recycling and waste disposal procedures were completed in line with strict European regulations and site requirements.
